At LTC Ally, we've developed distinct departments populated by trained specialists and industry experts.

Together, we are the most comprehensive back office solution in long-term care.

Behind our teams of specialists is proprietary software we've designed from the ground up to help streamline processes and stay on top of regulatory changes.

LTC Ally

Backed by some of the most advanced technology in the industry, LTC Ally's experts provide our clients with a full suite of back office services that deliver accurate, timely results in an industry that demands precision.

Specialists in Medicare, Medicaid, and Managed Care programs make up our vast department of billing, AR, and collections experts. We assign dedicated teams to oversee our clients' unique processes.

On average, we improve cash flow by 15% within 6 months of onboarding new facilities.

RCM TECHNOLOGY

Tracking Software
Aging Software

Our custom-built tracking and aging software help our specialists and managers track patient eligibility across insurers, streamlining intake and reducing billing delays and non-payers. We have near real-time access to claims statuses, speeding up the reimbursement cycle and addressing denials rapidly.

Custom Reporting Package

Our tailored reports give operators and administrators access to the data they need to track facility performance across a variety of metrics.

FINANCE EXPERTISE

Our finance experts come from a variety of backgrounds, including CPAs and controllers with experience at some of the largest financial institutions in the nation.

FINANCE TECHNOLOGY

Financial Reporting Platform

We've invested heavily in developing the most advanced reporting and business intelligence solutions in long-term care. Our clients regularly receive actionable insights and real data that drive informed business decisions

Interactive Dashboard Reporting

Our clients get unparalleled, on-demand insight into the performance of their facilities and every financial data point in a matter of clicks.

CONTRACTING EXPERTISE

LTC Ally's Contracting department consists of a range of experts with industry relationships they leverage to help operators expand their census and get in-network with some of the most sought-after payers in healthcare.

CONTRACTING TECHNOLOGY

Market-Rate Database

Our market-rate database gives us unparalleled insight into what networks are paying providers, helping us advocate for our clients and get them competitive terms.
